## GPSR - Regulation (EU) 2023/988

The GPSR, Regulation (EU) 2023/988 on general product safety lays down essential rules on the safety of consumer products placed or made available on the market.

This regulation does not apply to products for which specific European requirements with the same objective to regulate the safety of the concerned products are available according to Article 2 1. Regulation (EU) 2023/988.

As our products suitable for food contact are manufactured in compliance with all applicable specific provisions on food contact materials, e.g. framework regulation (EC) No. 1935/2004 and GMP regulation (EC) No. 2023/2006, they do not fall within the scope of the GPSR.

On behalf of  
MM BOARD & PAPER

Dr. Sigrid Gerold  
Head of Group Product Safety
